HAVE YOU MET YOUR ANNUAL INSURANCE DEDUCTIBLE?

USE YOUR BENEFITS BEFORE YOU LOSE IT

An insurance deductible is the amount of money that you must pay before your insurance company pays for your medical services. If your deductible is met, your Physical Therapy may not cost you anything. Patients with family plans or those who have had major surgeries or have a chronic illness are especially likely to have a \$0 balance remaining on their out-of-pocket expenses. This means that the cost of physical therapy could be minimal or completely covered by the patient's insurance plan.

If you are close to or have met your insurance deductible for the year, then now is the time to come in for Physical Therapy! Let us help you get a head start for 2021. **Call us today to schedule an appointment with one of our physical therapists.**
